

Clustering Algorithms

Unsupervised Learning

Clustering Algorithms:

Following Algorithms:

- **K-Means.**
- **Hierarchical Clustering.**
- **DBSCAN.**

Clustering Algorithms:

Following Algorithms:

- **K-Means.**
- **Hierarchical Clustering.**
- **DBSCAN.**

Clustering Algorithms:

➡ K-Means:

Steps:

- ☐ Decide n-clusters. (k)

- ☐ Initialize centroids.

(At start, the algorithm randomly selects 3 data points as centroids, if k is 3)

- ☐ Assign clusters.

(Euclidean distance of each data points with the centroids)

- ☐ Move centroids.

- ☐ Exit

Clustering Algorithms:
